| POSITION | **Team Lead** |
| NUMBER OF POSITIONS | 1 (One) |
| REPORTS TO | Country Director |
| LOCATION | Noida |
| Posting Date | 06 November 2026 |
| Closing Date | 12 November 2026 |

**Background**

World Health Partners (WHP) is a non-profit organization mandated to deliver holistic healthcare to underserved communities by innovatively leveraging available resources more efficiently. Evidence-based management and technological solutions that are sophisticated to work in extremely low-resource settings are the hallmarks of WHP's programming strategy. WHP believes that it is unconscionable to divide resources on ideological basis—such as public and private sectors—since low resource settings mandate a focus on collectivizing all existing resources to achieve better outcomes.

WHP is best known for its programs focused on early detection and treatment of tuberculosis in urban and rural settings supported by community-based activities to ensure prevention. WHP currently operates its projects in Bihar, Delhi, Jharkhand, Uttar Pradesh, Punjab, Haryana, Uttarakhand, Uttarakhand and Odisha.

**About the project**

WHP has been selected to implement Intensified Case Finding (ICF) under Tuberculosis Implementation Framework Agreement (TIFA) of select Medical Colleges, District Hospitals and Community Health Centers in Uttar Pradesh and Bihar. Medical colleges, district hospitals and Community Health Centers serve as a strong, yet underexplored, opportunity to identify missing cases, and integrate them into the care cascade. Medical colleges and district hospitals in India serve as tertiary referral hubs, witnessing massive daily footfalls in Outpatient Departments (OPDs) and high bed-occupancy in wards, contributing low notification of total cases consistently for decades. Despite the high potential, medical colleges, for example, face massive pre-testing attrition, with majority of symptomatic patients dropping out between the initial screening and the laboratory.

The Team Lead serves as a pivotal role responsible for the comprehensive management of project implementation within the specified states. She/he will function as the primary point of contact from the World Health Partners for regular communications related to the project. Moreover, the Team Lead assumes accountability for ensuring the timely and successful delivery of all committed project deliverables.

**Scope of work and key responsibilities**

Key Responsibility Areas (KRA) would include but not be restricted to the following:

- Serve as the focal point for WHP in implementing The TIFA-supported project in specified states.
- Coordinate with the TIFA team for concurrent communication on funding and program implementation.
- Lead and support state teams to ensure smooth execution of Intensified Case Finding activities in select Medical Colleges and District Hospitals
- Review activity plans and budgets for all implementation sites, providing assistance for planned activities and budget utilization.
- Supervise, coordinate, guide, and review project implementation processes.
- Support government engagement in collaboration with state teams as required
- Support the achieving deliverables proposed in Activity descriptions track the KPI of the project
- Enhance coordination with NTEP through advocacy and functional networking
- Guide state teams in various project components.
- Facilitate visits of TIFA team, NTEP officials to project sites

**Qualifications, Skills and competencies**

- Advanced master's degree in Social Sciences, Sociology, Program Management, Rural Development, or Public Health with more than 10 years of experience in a key position managing health programs, social development programs, rural development
- Experience in leading multi-state/national projects with a preference for expertise in bilateral funded initiatives
- Proven leadership skills, including team management, interpersonal capabilities, project management, and efficient task/time management.
- Proven experience in milestone based projects
- Technical/clinical expertise or program management skills in health projects, with a focus on integration.
- Solid understanding of the Indian healthcare system, health sector initiatives, and relevant tuberculosis-related government policies/strategies.
- Prefer expertise/experience in health systems strengthening and integrated health service delivery.
- Proficient in writing technical reports, program documents, and delivering presentations.
- Excellent cross-cultural oral and written communication skills in English.

**Remuneration**

A competitive salary commensurate with experience is offered. World Health Partners (WHP) is an employer that follows the principle of equal opportunity about its hiring and promotion procedures. WHP does not discriminate based on religion, race, class, or gender and is committed to giving everyone an equal chance.
