POSITION	**Health Facilitators**
NUMBER OF POSITIONS	40 (Forty)
REPORTS TO	Filed Officers
LOCATION	Medical colleges, District Hospitals and Community Health Centers of Mirzapur & Ghazipur in UP and Saharsa and Katihar in Bihar
Posting Date	06/11/2026
Closing Date	12/11/2026

Background

World Health Partners (WHP) is a non-profit organization mandated to deliver holistic healthcare to underserved communities by innovatively leveraging available resources more efficiently. Evidence-based management and technological solutions that are sophisticated to work in extremely low-resource settings are the hallmarks of WHP's programming strategy. WHP believes that it is unconscionable to divide resources on ideological basis—such as public and private sectors—since low resource settings mandate a focus on collectivizing all existing resources to achieve better outcomes.

WHP is best known for its programs focused on early detection and treatment of tuberculosis in urban and rural settings supported by community-based activities to ensure prevention. WHP currently operates its projects in Bihar, Delhi, Jharkhand, Uttar Pradesh, Punjab, Haryana, Uttarakhand, Uttarakhand and Odisha.

About the project

WHP has been selected to implement Intensified Case Finding (ICF) under Tuberculosis Implementation Framework Agreement (TIFA) of select Medical Colleges, District Hospitals and Community Health Centers in Uttar Pradesh and Bihar. Medical colleges, district hospitals and Community Health Centers serve as a strong, yet underexplored, opportunity to identify missing cases, and integrate them into the care cascade. Medical colleges and district hospitals in India serve as tertiary referral hubs, witnessing massive daily footfalls in Outpatient Departments (OPDs) and high bed-occupancy in wards, contributing low notification of total cases consistently for decades. Despite the high potential, medical colleges, for example, face massive pre-testing attrition, with majority of symptomatic patients dropping out between the initial screening and the laboratory.

The Health Facilitators serves as a pivotal role responsible for the comprehensive management of project implementation in their intervention facilities in the districts. She/he will function as the primary point of contact for the intervention facility from the WHP for screening, referral and regular reporting of data related to the project. Moreover, the Health facilitators assumes accountability for ensuring the timely and successful delivery of all committed project deliverables in their respective intervention facilities.

Key Responsibilities

The primary responsibility of a "Health Facilitators" is to support Intensive Case Finding for TB (ICF) activities in the select facilities as per the national TB program guidelines. The responsibilities include, but are not limited to:

- Coordinate with health facilities and facility staffs and register "Key Vulnerable Population" for TB screening
- Function as focal person for the project in the assigned facilities on behalf of WHP/TIFA
- Willing to work in the high case load hospitals environment e.g. Medical colleges, District hospitals and Community Health Centers
- Spoken in Hindi and local language and data entry skills is desirable
- Self-motivated and able to motivate facility staffs (ward nurses, registration staffs, laboratory technicians) and other facility staffs for TB screening and registration
- Commitment to project activities, deliverables, timeline of project components
- Commitment to quality work by self, and aforementioned facility staffs
- Willingness to collect sputum and transport to labs or guide patients to laboratory
- Motivate and guide persons with symptoms for chest X-ray
- Willingness to follow-up with screened patients for TB and motivate them to visit facility for treatment initiation if diagnosed as positive or preventive therapy if diagnosed as negative
- Report daily data in the TBMP tool and internal MIS application

Qualifications, Skills and competencies

Key Responsibility Areas (KRA) would include but not be restricted to the following:

- Candidate should be 18 years and above, 10th or 12th pass (able to read and write)/Bachelor's degree/Diploma in Arts/Science/Commerce
- At least 1 year of experience in community outreach, health education, or a similar role, preferably within TB or infectious disease programs
- Should have hands-on experience in handling electronic devices like tablets and laptops and be familiar with any data entry tools
- Willing to document and report as per the project requirements
- People who work as a TB champion, or My Bharat volunteer, will be given preference if they fit under the other mentioned criteria.

Remuneration

A competitive salary commensurate with experience is offered. World Health Partners (WHP) is an employer that follows the principle of equal opportunity about its hiring and promotion procedures. WHP does not discriminate based on religion, race, class, or gender and is committed to giving everyone an equal chance.
